Austrian Presidency 2004

SHIRBRIG Presidency Briefing

The Multinational Standby High Readiness Brigade for United Nations Operations - a Model for the African Standby Forces Brigades?

USEUCOM African Clearing House Conference

Austrian Presidency 2004

African Union Statement

"The SHIRBRIG concept acts as a very good model for the sub-regional standby brigade groups recommended by the ACDS and endorsed by African Member States. In this respect, the indicative organizational structures and scheme of management of the SHIRBRIG, including its legal framework and training, could well influence and guide the operationalization of the ASF and other SROs."
